

RESURRECTION TREES

Everyone thought that when Jesus died that was the end of His story, but only three days later, He was a alive again. We can see that rhythm of death and life in the world around us every year, especially in trees which spring back to life each year.

Can you take a dead twig and bring it back to life to make a 'resurrection tree'?

Find a twig in your garden or when you are out for a walk, then collect up bright and colourful things from around your house to attach to it as 'resurrection blossom'. You could use brightly coloured paper, food packaging or even some old socks... just make sure you ask a grown up before you start cutting things up and sticking them on!
